

**APRICUM**  
THE CLEANTECH ADVISORY.

## You like the sunshine? Make it your profession.

Internship in Cleantech Management Consultancy

### About Apricum

Apricum – The Cleantech Advisory is a strategic management consultancy with an exclusive focus on renewable energy technologies, based in Berlin. We advise companies and investors worldwide in strategy design, M&A transactions and business development as well as governmental and academic institutions in economic development and policy design.

### Your position

Based in Apricum's Berlin office, you are part of Apricum's consulting team and work as Project Associate for clients around the globe, contributing to strategic projects in Cleantech industries. You analyze markets and technologies and condense findings in presentations for the clients' top-level management. You are coached by an experienced Project Manager.

### Our offer in brief

- Work in the dynamic start-up environment of a young top-management consulting firm
- Develop your profile in the fast-growing Cleantech industry
- Learn from an international, experienced expert team
- Enjoy a healthy work-life balance and an attractive financial compensation
- Be based in Berlin, contribute to projects around the globe
- Opportunity to join Apricum as a consultant after graduation

### Your profile

- Bachelor's degree with excellent academic achievements, preferably in engineering, business, economics or science
- First work experience, preferably in consulting, industry or finance
- Interest in energy-related topics, enthusiasm for renewable energy
- Highly structured thinking and strong analytical skills
- Fluent communication skills in English, both spoken and in writing

### Your application
